**NOTES:**  
 Italicized companies were not asked to provide a speaker for this year's President's Seminar. Companies shown in bold face were asked to provide a representative. Italicized speaker names indicate unable to participate.  
 From 1991 through 1999 invitees were chosen based on market share as represented in Library Journal's annual April "Automated System Marketplace" articles.  
 Panelists at the 2000 through 2005 seminars were invited based on suggestions received in response to Rob McGee's informal survey of past participants.
